

## Thinking of hosting a Pink Parties Private Event?

I can't wait until we set a date to meet your friends, work colleagues and family members to share important news about breast health and raise money for breast cancer charities.

Here are some tips to make sure your Event goes brilliantly.

1. Remember this is a **Fund Raising Event** – so it's OK to ask for donations.
2. Fill in the Invitation and check the details:
  - a **Your name** goes in the first ..... to invite your guests
  - b **Date** (may be already added) and Time (let me know too)
  - c **Where:** - your home or address if using another venue
  - d **Theme:** This can be anything you choose - feel free to be creative, go mad, decorate (like a pink Christmas!!) Other hosts have had Pink, Butterflies – encourage your guests to join in, dress, bring food or gifts for raffle with the them in mind.
  - e. **Why:** Thank you again – we do have some important messages to give out and support women in protecting themselves (as much as possible) and take responsibility for good Breast Health.
  - f. **RSVP** put your name and contact phone number here
3. **Suggested Donations:** Ask your guests for a Donation to come to this fantastic event. They can give anything from 0 - £5 or more if they wish. It is voluntary - try to collect this BEFORE your event.

This is an important and unique part of Pink Parties Events – Raising funds for Charities, some guests might not be able to attend but still welcome the opportunity to donation to this worthy cause.

We may run a competition as to which event can raise the most money.

4. Start **asking** family and friends to come. Ask more than your sitting room can hold - not everyone will be able to make it and if they do – a crush is great fun!!!!!!
5. **Ask** Guests to donate, bring a raffle prize and/or some food or drink that matches the theme.

### On the Night:

I will arrive a little earlier than your guests. I'll need a table or clear space.

Thank YOU

---

### Remember don't keep Breast Health Education a secret. Every Woman needs to KNOW..

1 in 9 women will experience Breast Cancer – ensure you and those you love beat the odds with a Breast Chek Kit.

The Breast Chek Kit makes no claims that, even with its use, breast cancer, breast lumps, or other breast diseases will be found. It should be used in conjunction with regular clinical breast examinations and mammograms as advised by your physician.

Also an opportunity to earn additional income – as an Plexus Pink Ambassador [www.plexuspink.com/84047](http://www.plexuspink.com/84047)
